

INSTRUCTION MANUAL

# NOBLE MAJESTY!

You've been waiting a while for your Project Game Keep Shelfcase to arrive thank you for your patience,  
Noble One!

Today is a glorious day! Project GameKeep stands ready to serve you in every future gaming session - it just needs a little assembly first...but we're here to help!

Our deepest thanks to every gracious Majesty who has supported and pre-ordered! Over the years, you've helped us take BoxKing Gaming from a flicker of imagination to a small but stalwart gaming company: from project Ironside BoxThrone board game shelves, and LAX RAX, Kingwood and now Project GameKeep Shelfcase - and many more in the future!

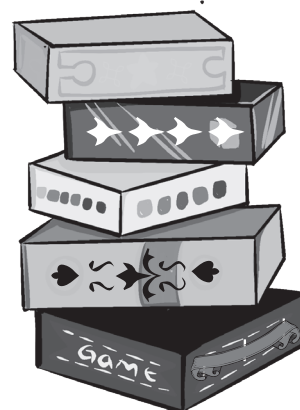

Feel free to tag us on Instagram, YouTube or Facebook once you've built your table! We'll share, retweet, or reply to your post!

Facebook: [www.facebook.com/BoxKing Gaming](http://www.facebook.com/BoxKing Gaming)

You can also see other curious creations at  
[www.boxkinggaming.com](http://www.boxkinggaming.com)

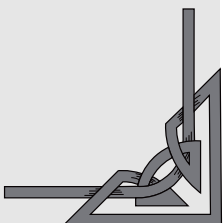

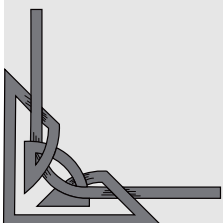

Onwards, your Majesty - your table awaits!

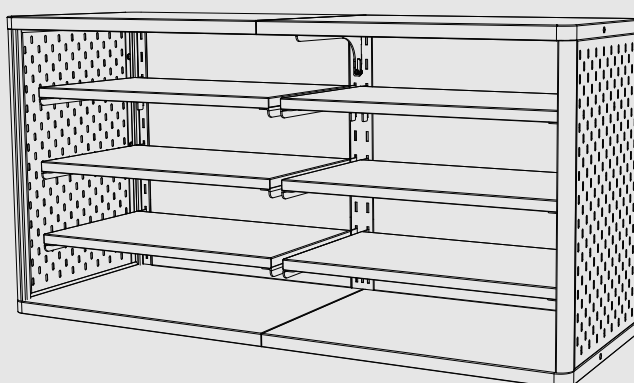

Humbly yours,  
BoxKing Gaming

- 
- 
- Upon unboxing, please verify that all screws, brackets, and accessories are present to ensure nothing is missing.
  - Please be sure to follow the instructions in the manual carefully during assembly. Do not overtighten screws or forcibly bend metal components, as this may result in scratches or deformation.
  - Please place the shelving unit on a flat, dry surface. Avoid placing it in humid environments (such as bathrooms) or high-temperature areas (such as near radiators).
  - Please inspect the unit every three months to check for loose screws or frame deformation; tighten or replace relevant components as needed.
  - Each shelf tier supports a maximum load of 10 kg; heavier items, such as game boxes, should be placed on the bottom tier (the first shelf). The pegboard panel supports a maximum load of 2 kg and is compatible with various types of hooks.
  - If the surface comes into contact with water, wipe it dry immediately with a cloth. Do not use steel wool or acidic cleaning agents to scrub the unit, as this may lead to rust or damage to the paint finish.
  - Please do not allow children to climb on the shelving unit.
  - Once the GameKeep unit has been assembled, for your safety, please use the included wall-mounting kit to secure it to the wall.
  - Do not place flammable or explosive materials on the shelving unit.
  - If you have any questions or suggestions, please contact us via email at [support@boxkinggaming.com](mailto:support@boxkinggaming.com).

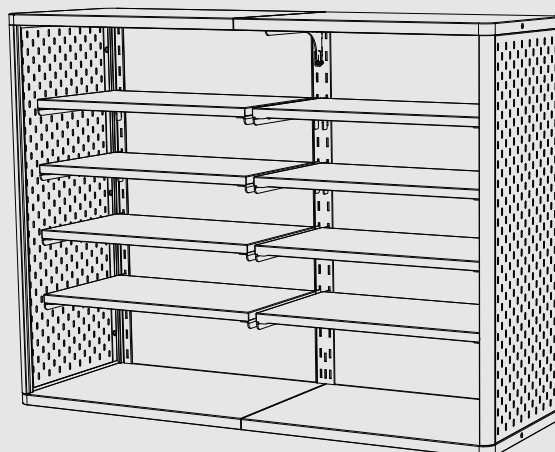

**TIPS:** Proper use will extend the product's lifespan. Thank you for your purchase!

PS:  Round Rubber Mat (Required only for stacking two sets, see Step 16 for details)

## Step 1: Align the Base Panels(7)(8)

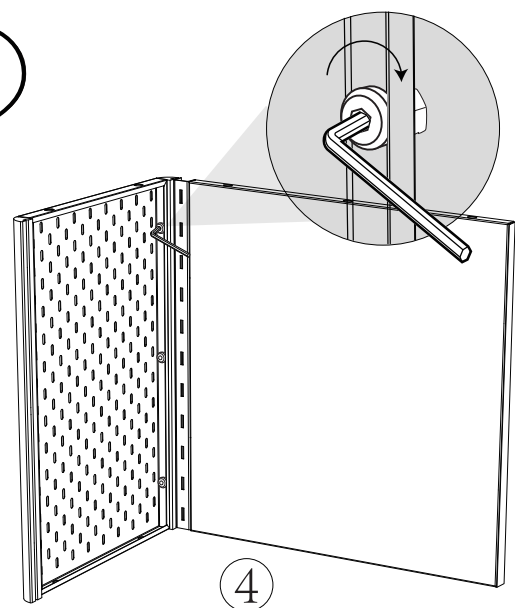

- Insert the screws into the designated mounting holes. Use the Allen key to tighten all screws securely.

## Step 2: Side Panel & Guide Rail Assembly

**TIPS**  
Make sure the top and bottom are oriented correctly.

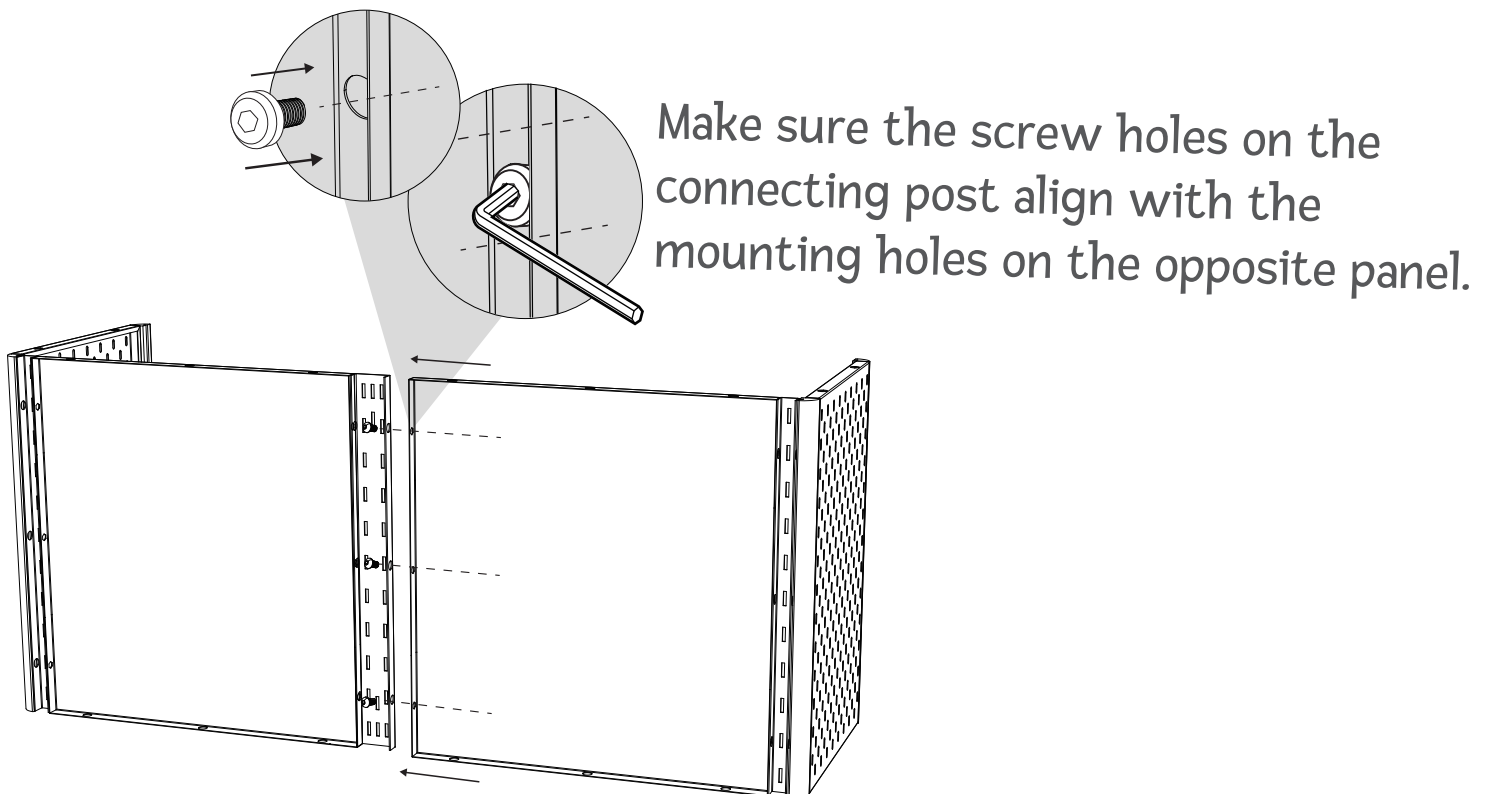

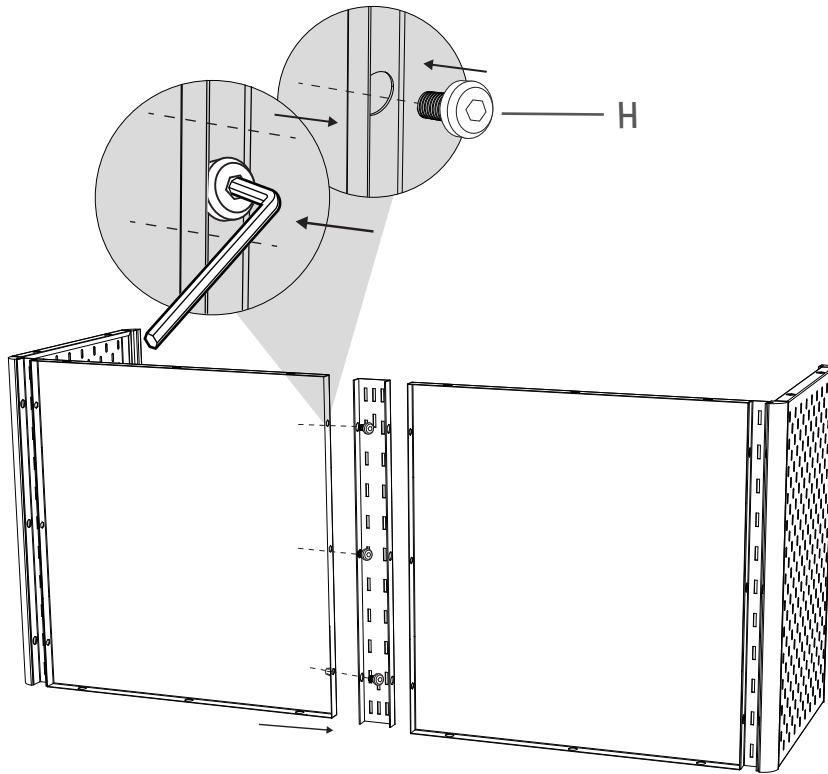

Slide the side panel assembly down along the back panel channel to align and fit them together.

Use the Allen key to fully tighten all screws, locking the rail and side panel securely in place.

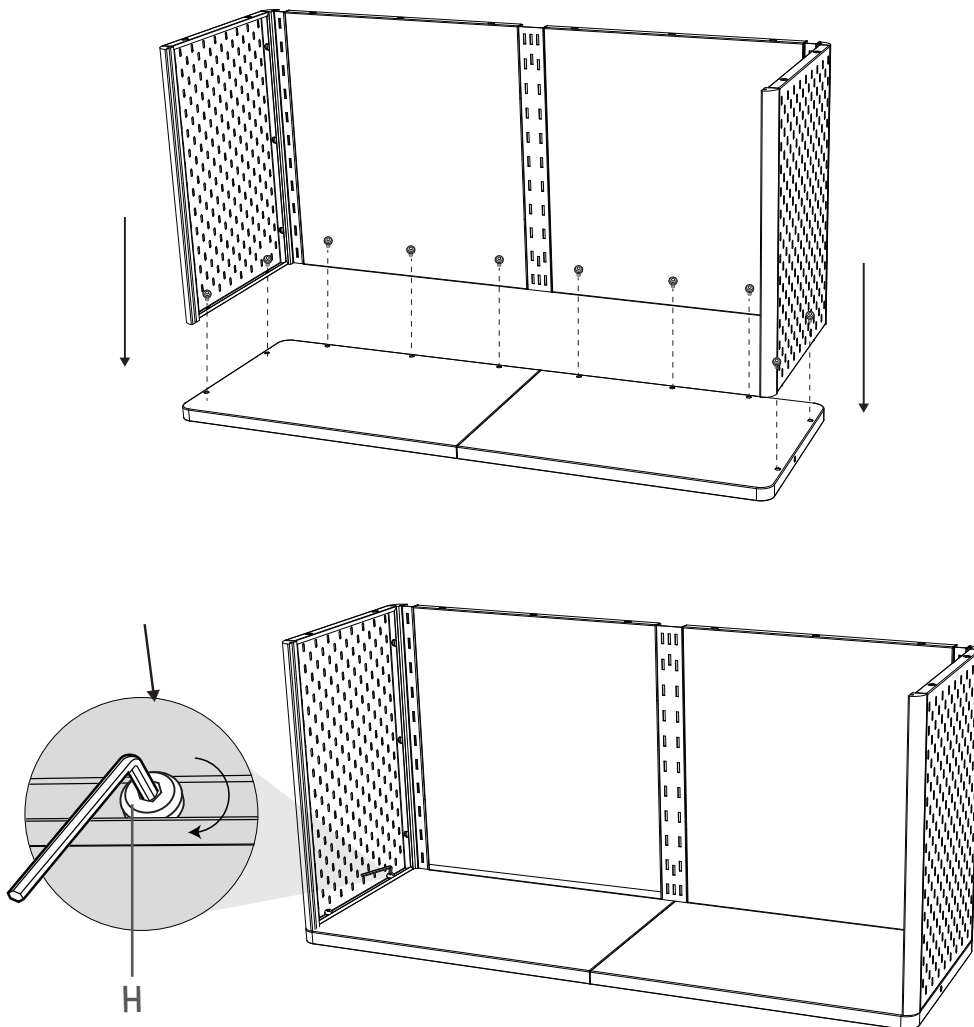

## Step 3: Two-Door Cabinet Frame Assembly

- Align the two assembled side panel and back panel assemblies. Secure them in the middle using connecting posts(2).

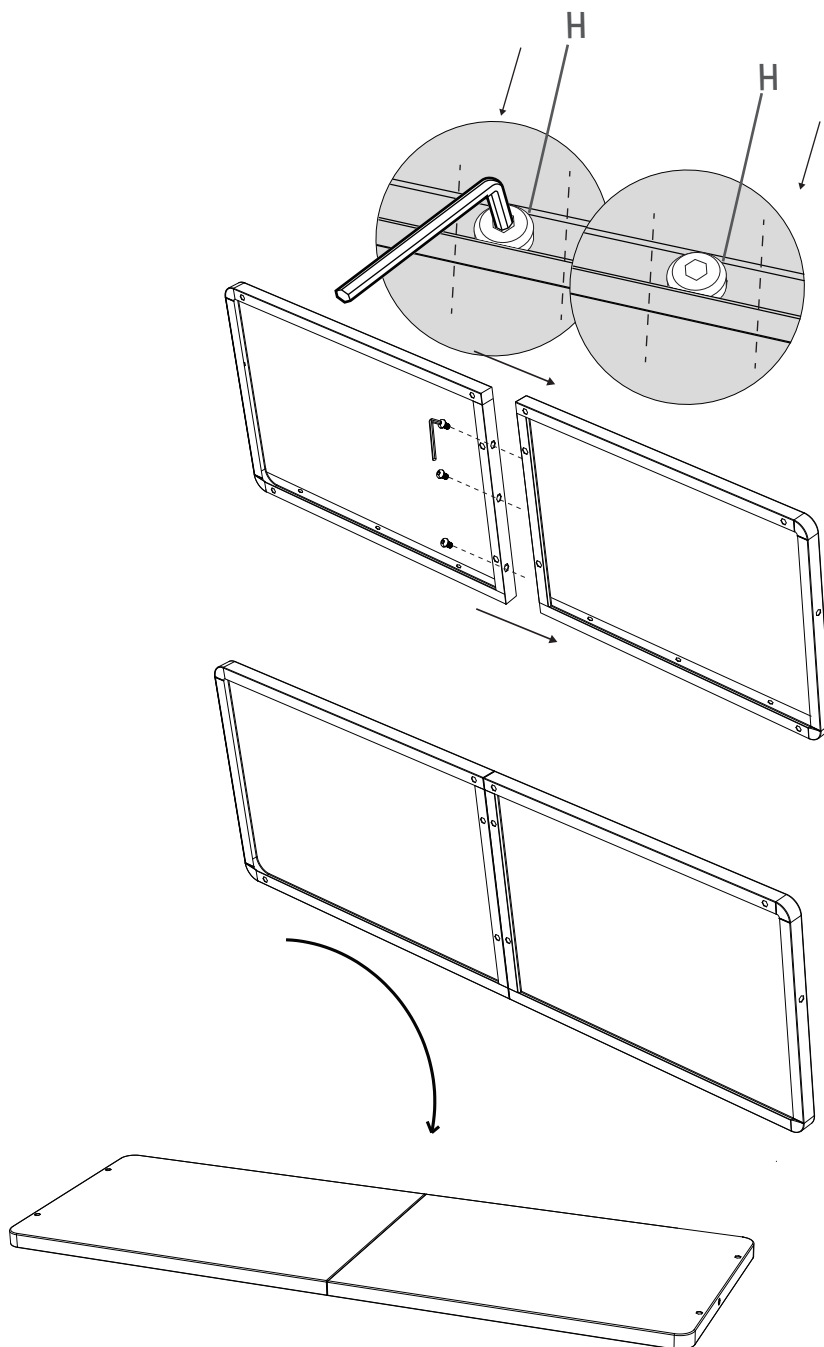

## Step 4: Attach the Base Panel to the Frame

- Insert the screws into the designated mounting holes.
- Use the Allen key to tighten all screws securely.

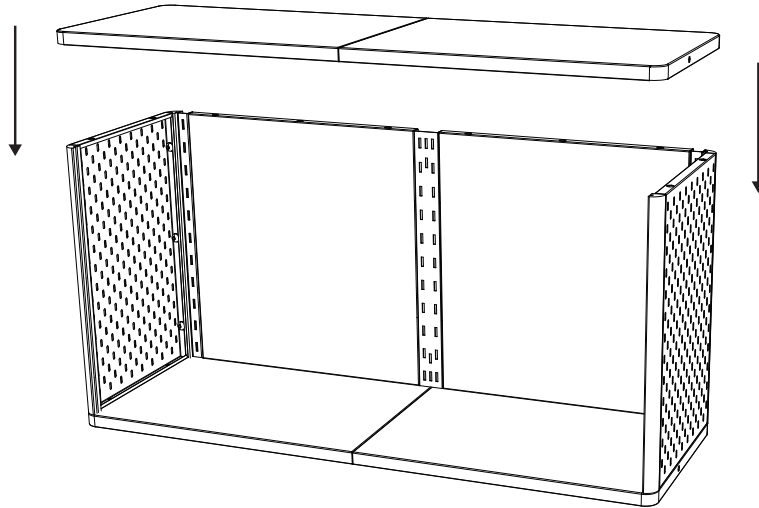

## Step 5: Align the Top Cover Plate(5)(6)

- Align the two top panels together.
- Insert the screws into the designated holes.

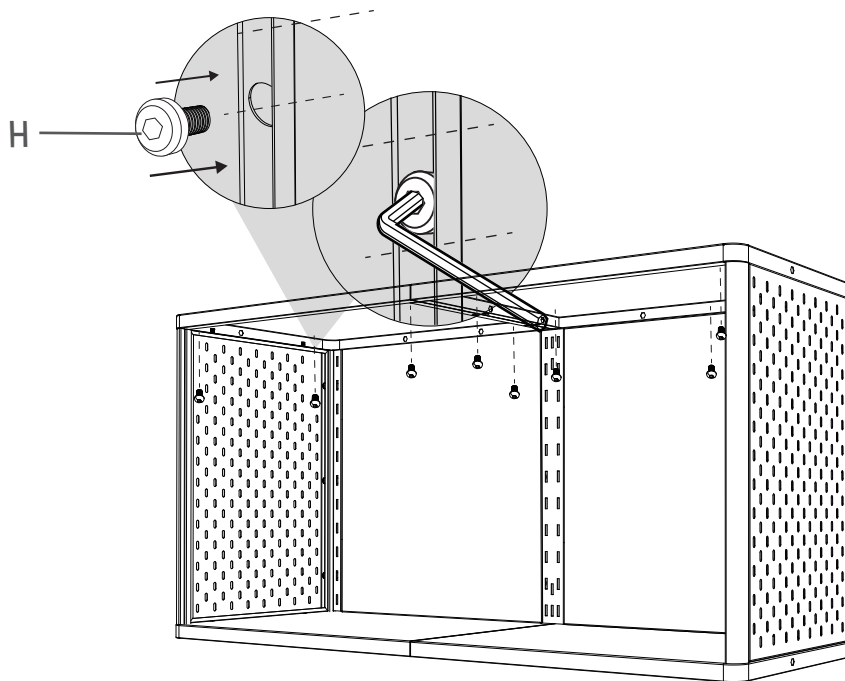

## Step 6: Attach the Top Cover Panel to the Frame

- Align it with the mounting holes on top of the main frame.

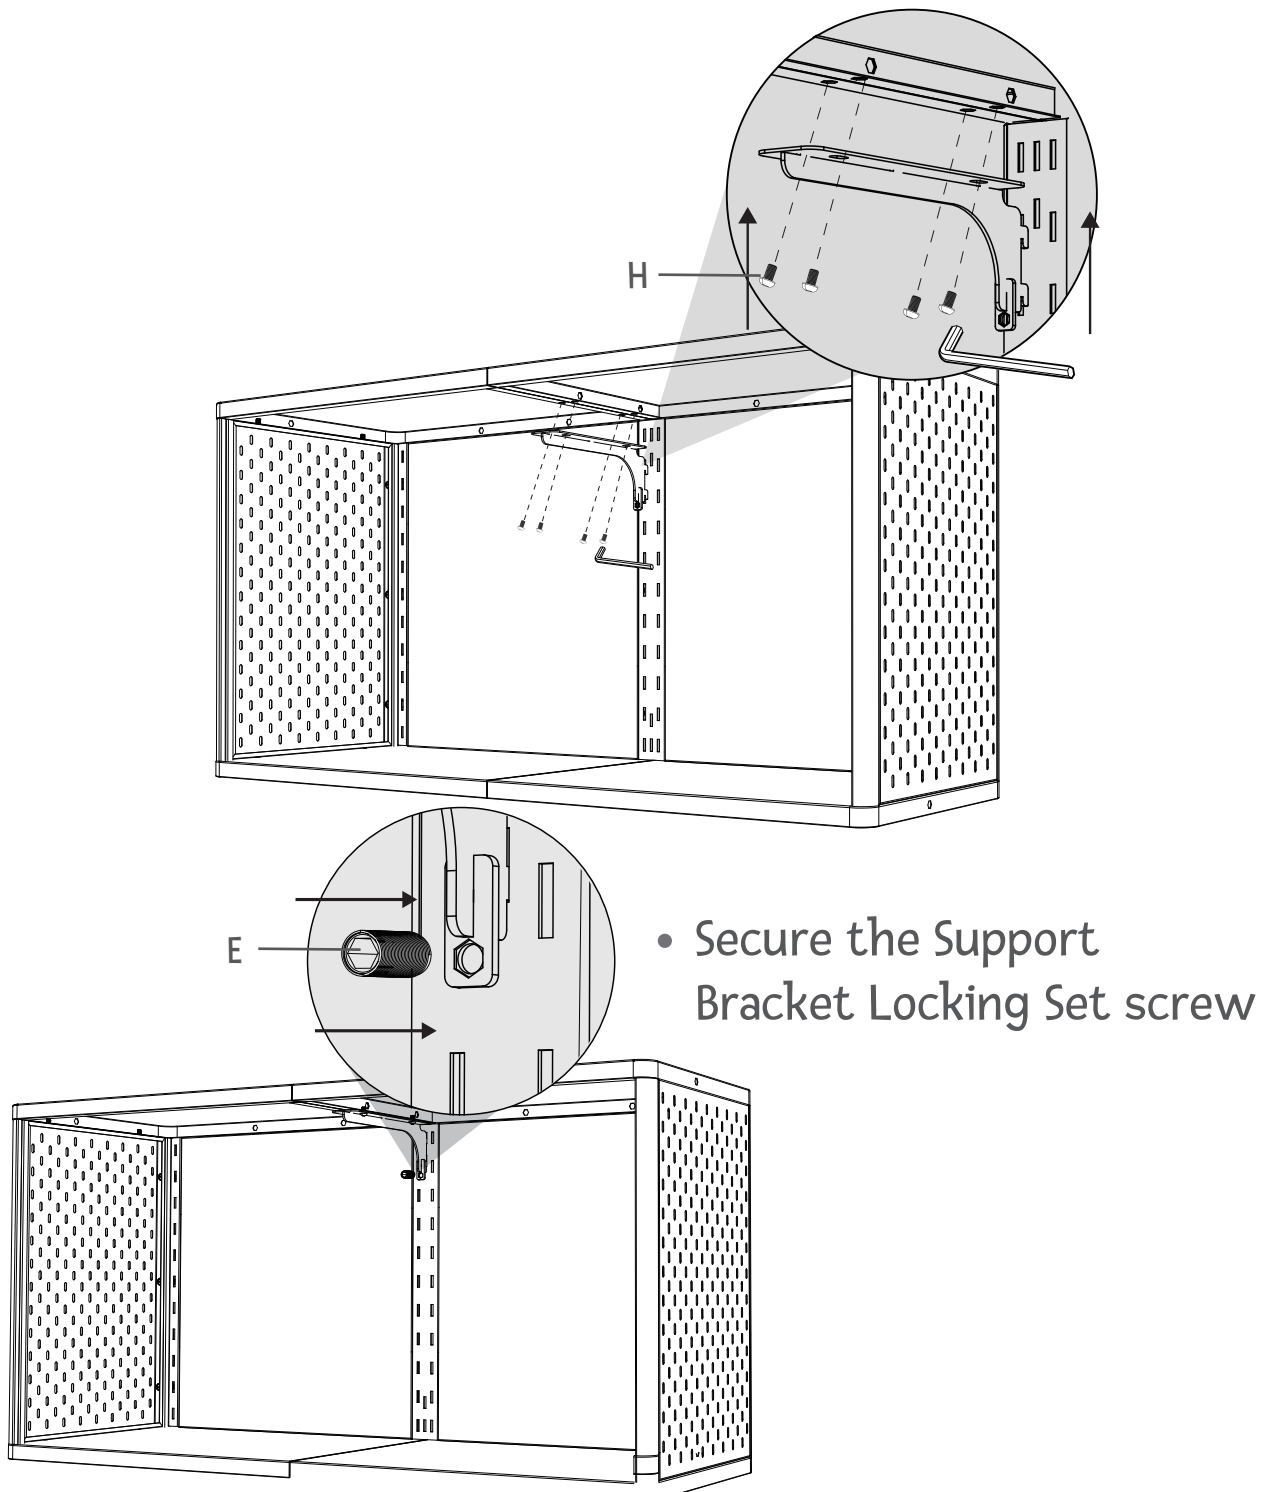

- Use the Allen key to tighten the screws clockwise.

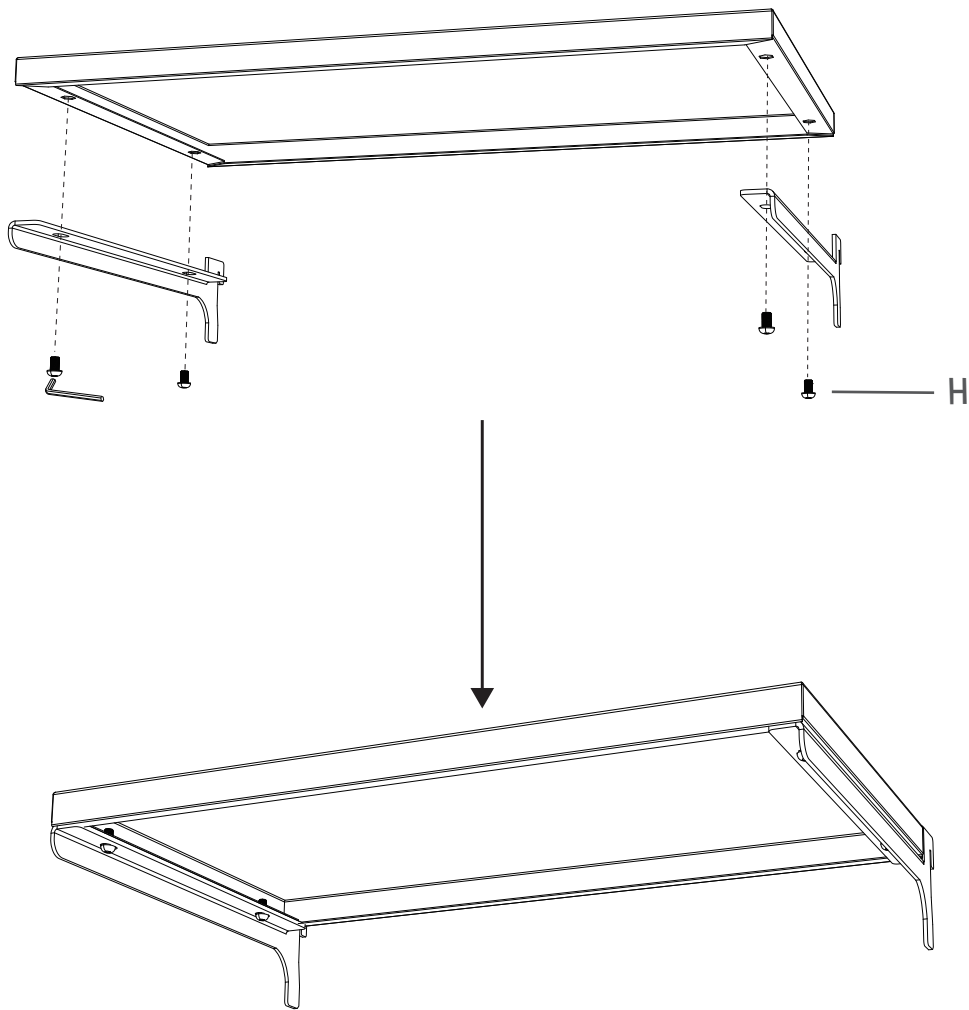

## Step 7: Install the Inner Support Bracket

- Place the Inner support bracket(4) inside the cabinet at the designated position. Push the bracket upward to lock it into the slots.
- Insert the screws upward into the designated mounting holes.

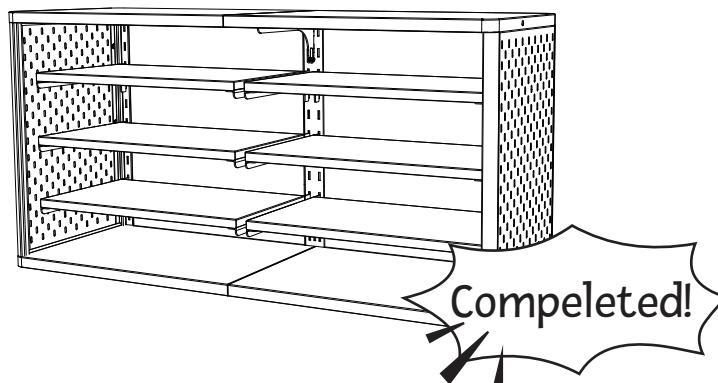

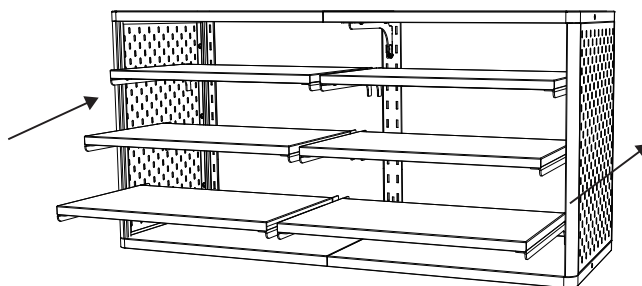

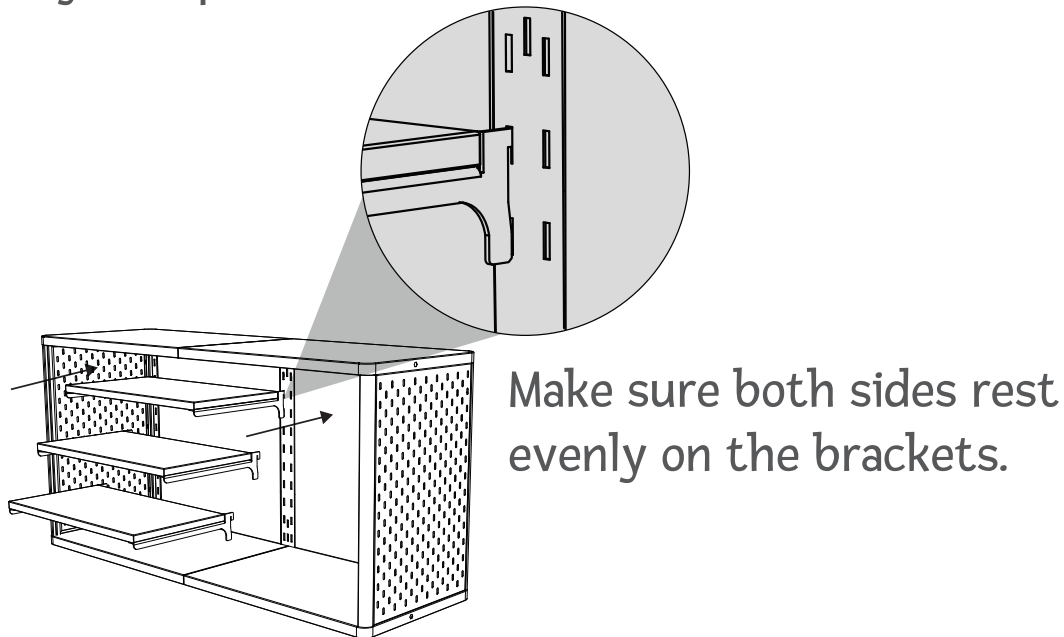

## Step 8: Install the Shelf Board

- Place Shelf board(9) inside the cabinet at the designated position. Push the bracket upward to lock it into the slots.

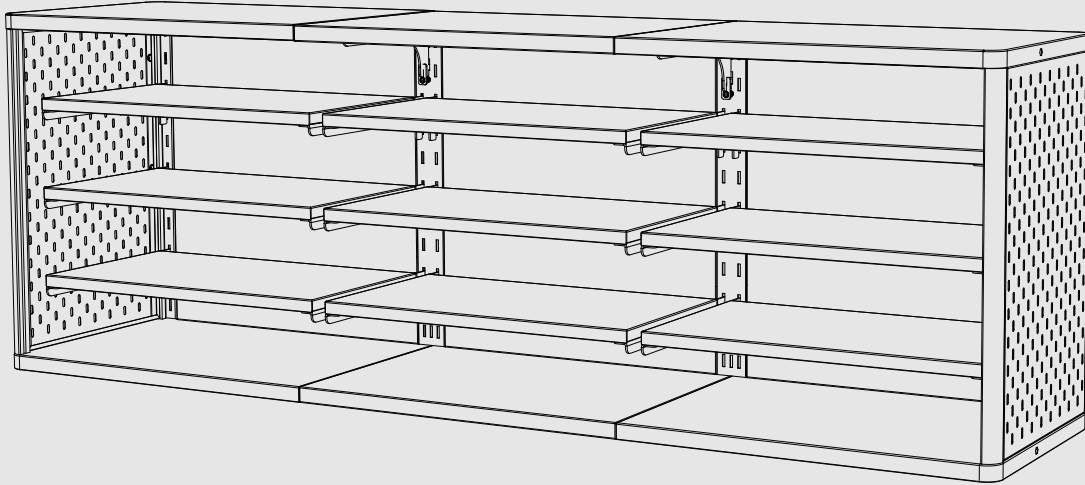

## Step 9: Install Adjustable Shelves

- Align the hooks of the shelf bracket(9) with the slots on the vertical post. Push inward and press downward to lock the hooks securely into place.

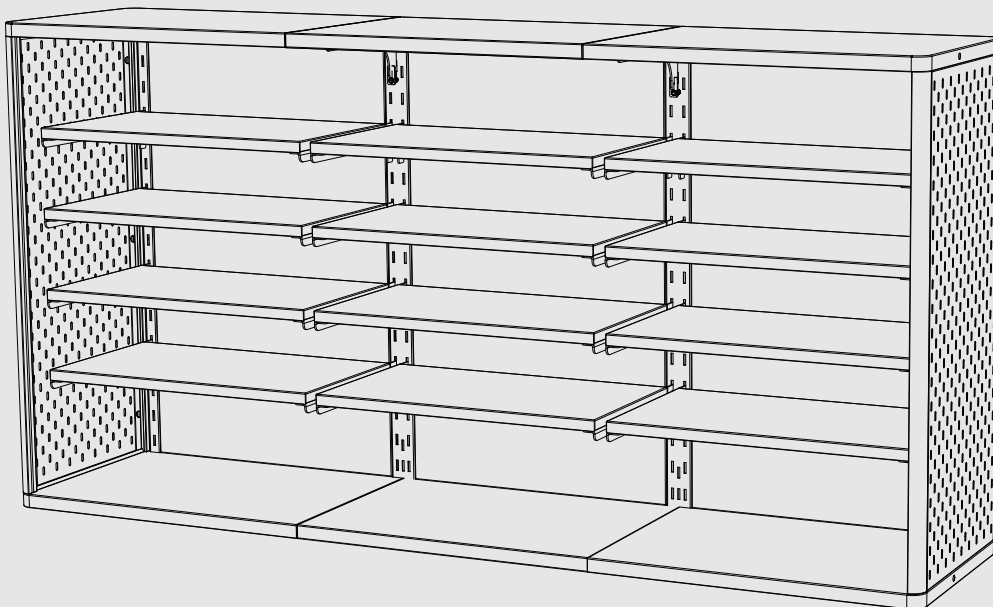

Installation method is the same as the Two-Door 90cm Cabinet

## Step 10: Three-Door Cabinet Frame Assembly

- Align the three assembled side-and-back panel units.

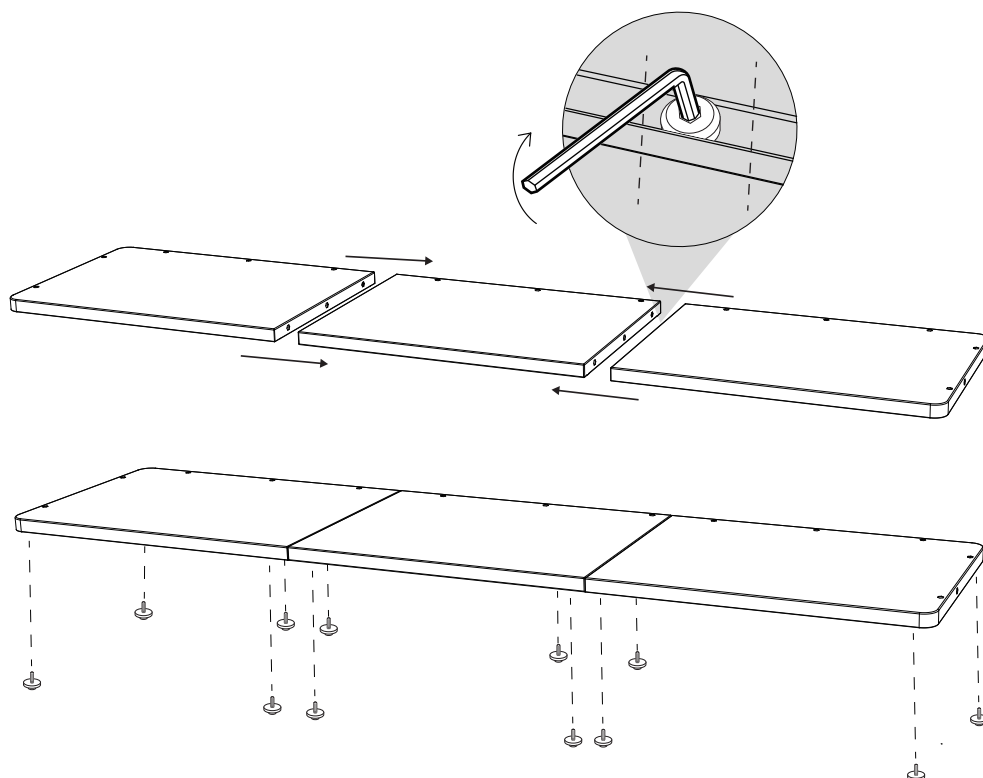

## Step 11: Install the Top Panel and Base Panel

- Top Panel

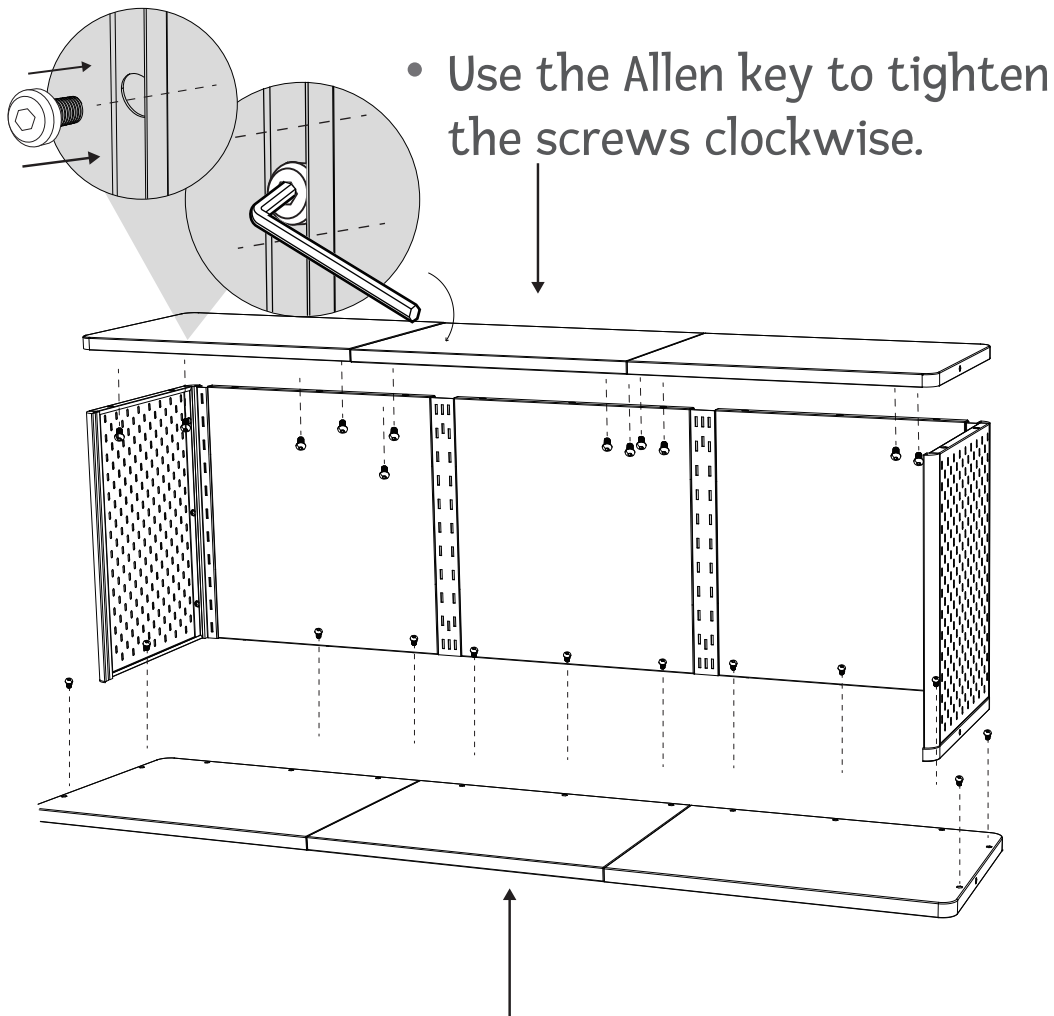

- Base Panel

- Install the Adjustable Feet

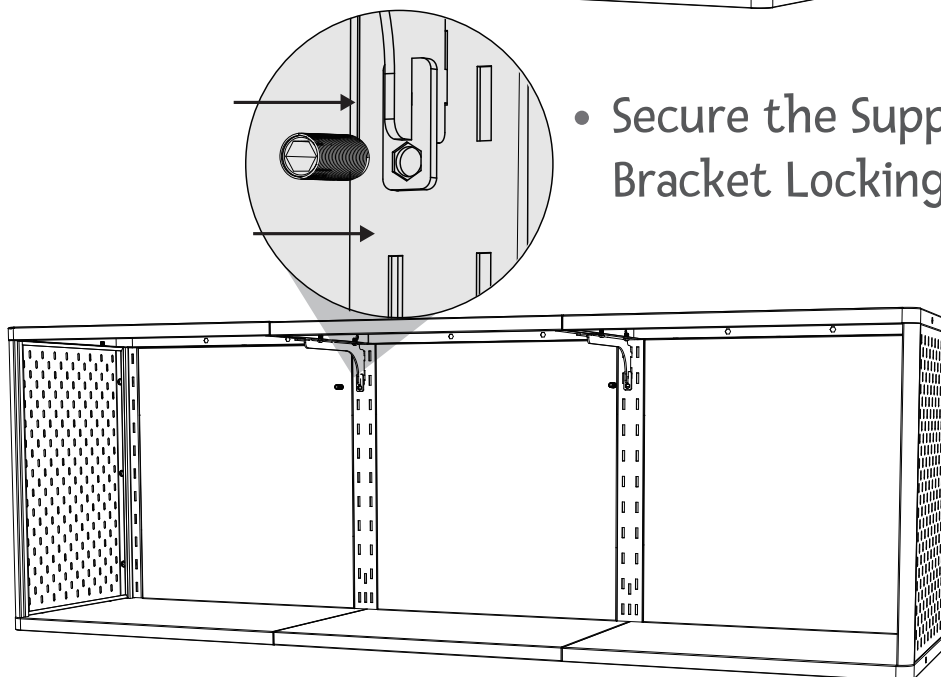

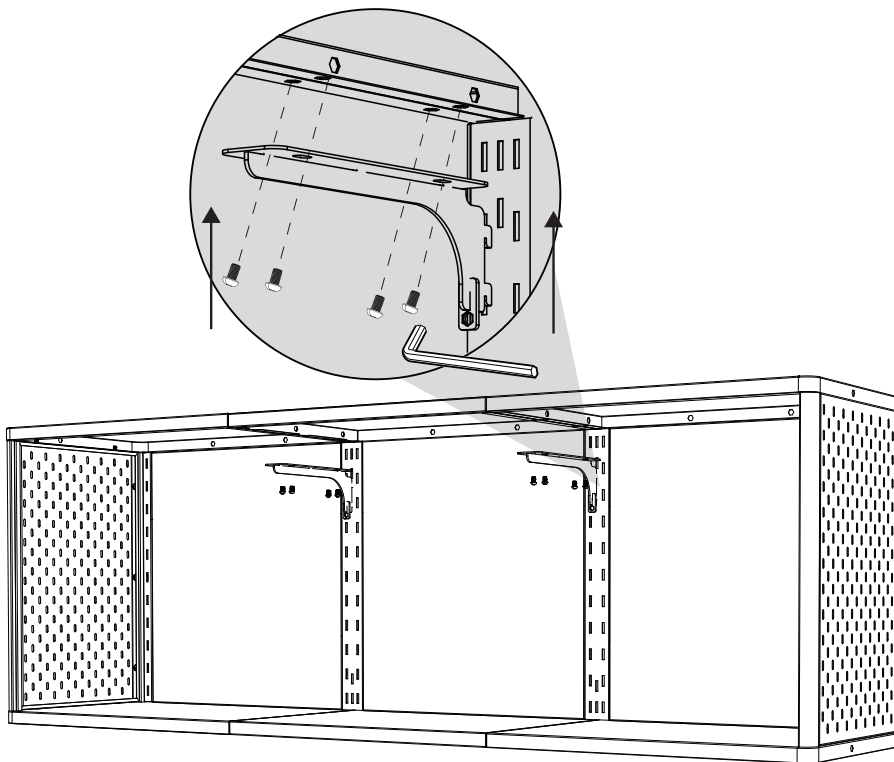

## Step 12: Attach the Top Panel and Base Panel to the Frame

- Align it with the mounting holes on top of the main frame.
- Align the inner support rails of the top panel and Base Panel with the mounting holes on the side and back panels.

## Step 13 Attach the Top Panel and Base Panel to the Frame

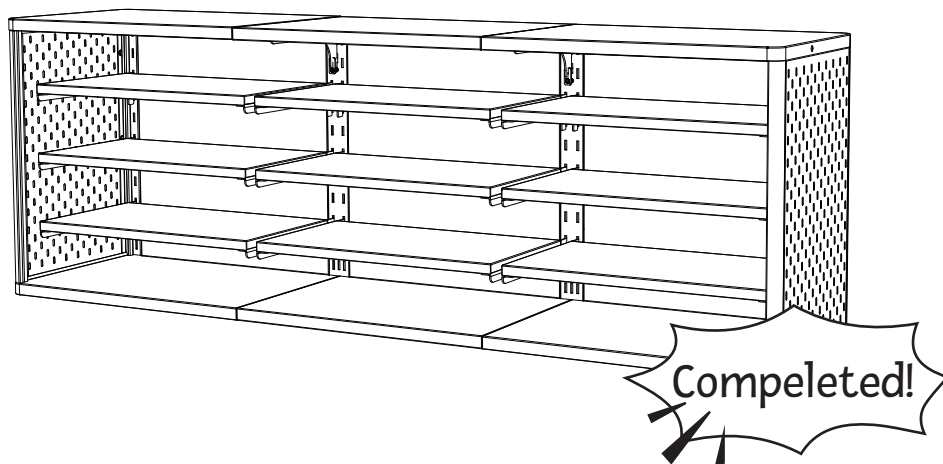

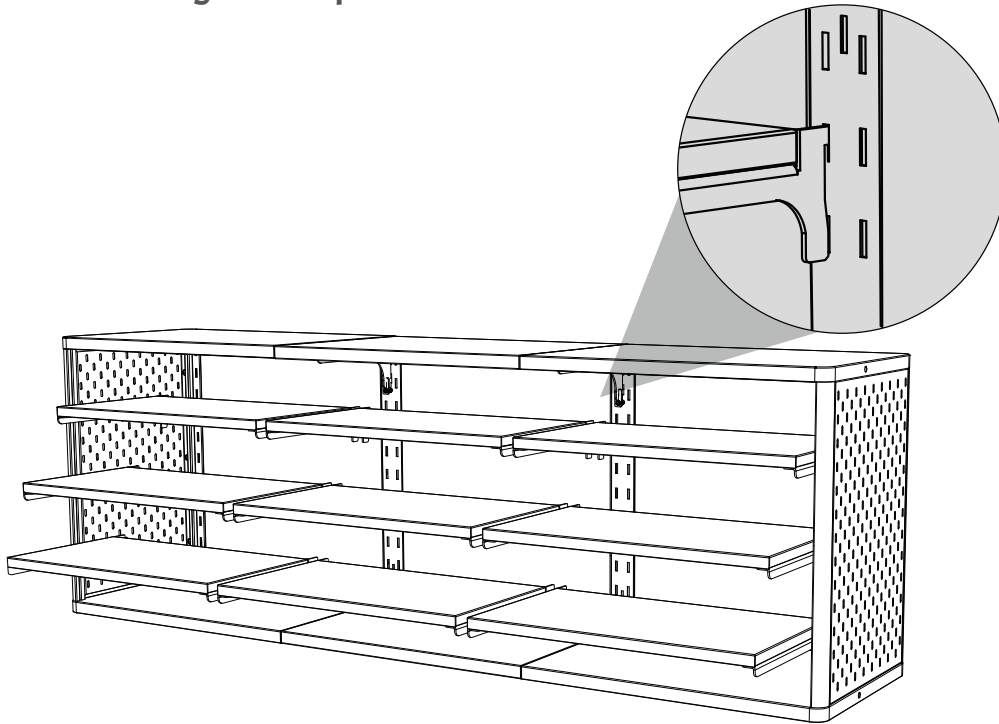

- Place the support bracket inside the cabinet at the designated position. Push the bracket upward to lock it into the slots.
- Insert the screws upward into the designated mounting holes.

- Secure the Support Bracket Locking Screw

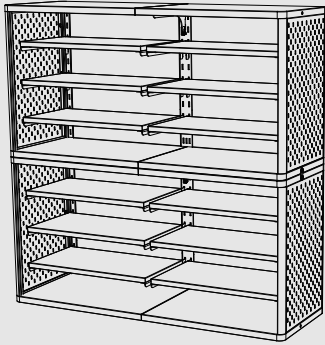

## Step 14: Install the Shelves

- Align the hooks of the shelf bracket with the slots on the vertical post. Push inward and press downward to lock the hooks securely into place.

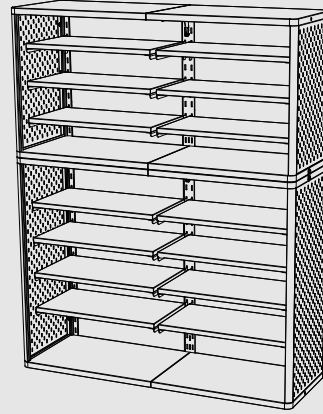

Installation method is the same as the Three-Door 90cm Cabinet

## Wall Mounting Cabinet Combination

Wall Mounting Cabinet Combination

## Step 16: Wall Mounting Cabinet Combination

- Attach the wall mounting brackets to the pre-drilled holes at the top of the cabinet. Secure the brackets to the cabinet using screws and tighten firmly.

Align the bracket slots with the wall anchors or screws, hang the unit in place, adjust, and fully tighten.
